**NETWORKS AND INTERNET
ACCEPTABLE USE POLICY**

Technology users' responsibilities go beyond network use. The New Boston School District also addresses copyright, security, and other issues as well as networking in this policy.

Unless otherwise specified, the following regulation shall apply equally to students, employees, school board members, volunteers, and contractors employed by the District and visitors. Employees, school board members, volunteers, and contractors may have additional obligations owing to the nature of their positions and/or access privileges.

The New Boston School District's Network is solely for the purpose of facilitating the exchange of information to further communication, education and research and is consistent with the mission of SAU #19 and the New Boston School District. The New Boston School District's Networks and the messages transmitted and documents created on them are the property of the District. The District has the right to monitor the use of such property to determine if any inappropriate use occurs. An authorization form must be completed by each person requesting access to these Networks. Any use without authorization is prohibited. Anyone who inappropriately uses the Network or the equipment may be subject to disciplinary action and/or the loss of its use.
