

**NEW BOSTON SCHOOL DISTRICT**

**INTERNET ACCESS FOR STAFF –  
ACCEPTABLE INTERNET USE PROCEDURES – FOR STAFF**

Purpose

The purpose of the Acceptable Use Procedures is to provide the procedures, rules, guidelines, and the code of conduct for the use of technology, the intranet, and the Internet.

Definition

The definition of "Information Networks" (Network) is any configuration of hardware and software which connects users. The Network includes, but is not limited to, all computer hardware, operating system software, application software, stored text, and data files. This includes electronic mail, local and externally accessed databases, recorded magnetic or optical media, clip art, digital images, digitized information, communications technologies, and new technologies as they become available. Network, mobile, and stand-alone devices are also governed by this acceptable use procedure.

The School District Services

The New Boston School District provides resources for teaching and learning, communication services, and business data services by maintaining access to local, regional, national, and international sources of information. The New Boston School District information resources will be used by members of the school community with respect for the public trust through which they have been provided and in accordance with policy and regulations established by the New Boston SchoolBoard. These procedures do not attempt to articulate all required for proscribed behavior by its users.

Successful operation of the Network requires that all users conduct themselves in a responsible, respectful, decent, ethical, and polite manner while using the Network. Users are ultimately responsible for their actions in accessing Network services.

Guidelines

1. Access to the Network and to the information technology environment within the New Boston School District is a privilege and must be treated as such by all users of the Network and its associated systems.
2. Information networks will be used for the purposes of research, education, and school-related business and operations.
3. Any system which requires password access or for which the New Boston School District requires an account, such as device, Network, or Internet access, will only be used by the authorized user. Account owners are ultimately responsible for all activity under their accounts.
4. The resources of the New Boston School District are limited. All users must exercise prudence in the shared use of this resource.
